Contents of Volume 224, 1982

No. 1 issued on May 10, 1982

J.C. Beauvillain, G. Tramu, P. Poulain: Enkephalin-immunoreactive neurons in the guinea-pig hypothalamus. An ultrastructural study 1

N. Slepecky, S.C. Chamberlain: Distribution and polarity of actin in the sensory hair cells of the chinchilla cochlea 15

T. Sminia, E.M. Janse: Distribution of IgM- and IgG-containing cells during the primary immune response in the rat spleen 25

C. Haldar-Misra, P. Pévet: The influence of noradrenaline on the process of protein/peptide secretion in the mammalian pineal organ. Comparative in vitro studies 33

N. Subhedar, V.V. Alandikar: Effect of electrical stimulation of the testis on the nucleus praeopticus pars magnocellularis of the frog, *Rana tigrina* 45

E.E. Ball, R.C. Stone: The cercal receptor system of the praying mantid, *Archimantis brunneriana* Sauss. I. Cercal morphology and receptor types 55

E.E. Ball, G.S. Boyan, R.C. Stone: The cercal receptor system of the praying mantid, *Archimantis brunneriana* Sauss. II. Cercal nerve structure and projection and electrophysiological responses of individual receptors 71

M.P. Schreibman, E.J. Berkowitz, R. van den Hurk: Histology and histochemistry of the testis and ovary of the platyfish, *Xiphophorus maculatus,* from birth to sexual maturity 81

H.E. Schroeder, A. Dörig-Schwarzenbach: Structure and composition of the oral mucous membrane on the lips and cheeks of the monkey, *Macaca fascicularis* 89

E. Follénius: Relationships between the tubular system in the globules of the coronet cells of the saccus vasculosus and the cerebrospinal fluid in *Gasterosteus aculeatus* form *leiurus* (Teleostei) 105

A.M.J. Buchan, V. Lance, J.M. Polak: The endocrine pancreas of *Alligator mississippiensis.* An immunocytochemical investigation 117

R. Echt, L.M. Ross, R.A. Roth, A.D. Pearsall: The effects of carbon monoxide and hypoxic hypoxia on amine-containing cells in the tracheal epithelium of young rabbits 129

D. Fellmann, J.L. Bresson, M.C. Clavequin, C. Bugnon: Quantitative immunocytochemical studies on the gonadotrophs isolated from the pituitary of the male rat 137

D. Newgreen, I. Gibbins: Factors controlling the time of onset of the migration of neural crest cells in the fowl embryo 145

W. Liebrich: The effects of cytochalasin B and colchicine on the morphogenesis of mitochondria in *Drosophila hydei* during meiosis and early spermiogenesis. An in vitro study 161

W.F. Jansen, E.H. Burger, M.A. Zandbergen: Subcellular localization of calcium in the coronet cells and tanycytes of the saccus vasculosus of the rainbow trout, *Salmo gairdneri* Richardson 169

H.-D. Pfannenstiel: Modified axonemes and ciliary membranes in three polychaete species 181

F. Hajós, A. Feminger, E. Bascó, É. Mezey: Transport of horseradish peroxidase by processes of radial glia from the pial surface into the mouse brain 189

G.M. Lew, A. Payer, W.B. Quay: The pinealocyte nucleolus. Ultrastructural and stereological analysis of twenty-four-hour changes 195

F. Hajdu, R. Hassler, Gy. Somogyi: Neuronal and synaptic organization of the lateral geniculate nucleus of the tree shrew, *Tupaia glis* 207

H.-E. Hoyer: Scanning electron-microscopic study of lens fibers of the pig 225

Short Communication

G. Fleissner, S. Heinrichs: Neurosecretory cells in the circadian-clock system of the scorpion, *Androctonus australis* 233

No. 2 issued on May 27, 1982

J.A. Black, S.G. Waxman, R.E. Foster: Spatial heterogeneity of the axolemma of non-myelinated fibers in the optic disc of the adult rat. Freeze-fracture observations 239

Y. Takeuchi, H. Kimura, Y. Sano: Immunohistochemical demonstration of the distribution of serotonin neurons in the brainstem of the rat and cat 247

P. Tardent, T. Holstein: Morphology and morphodynamics of the stenotele nematocyst of *Hydra attenuata* Pall. (Hydrozoa, Cnidaria) 269

A.M. Duijvestijn, Y.G. Köhler, E.C.M. Hoefsmit: Interdigitating cells and macrophages in the acute involuting rat thymus. An electron-microscopic study on phagocytic activity and population development 291

S. Hisano, H. Kawano, T. Nishiyama, S. Daikoku: Immunoreactive ACTH/β-endorphin neurons in the tubero-infundibular hypothalamus of rats 303

E.A. Koch, R.H. Spitzer: Autoradiographic studies of protein and polysaccharide synthesis during vitellogenesis in *Drosophila* 315

W.W. Minuth, W. Kriz: Culturing of renal collecting duct epithelium as globular bodies 335

Y. Yoshimura, O. Koga: Ultrastructural changes of the stigma of the follicle during the process of ovulation in the hen 349

R. van den Hurk: Effects of steroids on gonadotropic (GTH) cells in the pituitary of rainbow trout, *Salmo gairdneri*, shortly after hatching 361

R.A. Perry, P.M. Robinson, G.B. Ryan: Ultrastructure of the pars intermedia of the developing sheep hypophysis 369

K. Toshimori, C. Ōura: Cellular interconnections in the young mouse ovary. Freeze-fracture study 383

M.J. Heynen, R.L. Verwilghen: A quantitative ultrastructural study of normal rat erythroblasts and reticulocytes 397

P. Röhlich, R.A. Pevzner: The chemoreceptor surface of the taste organ in the frog *Rana esculenta*. A freeze-fracture analysis 409

H. Durrer, S. Bowald: Quantitative cytoarchitecture of the liver of the shrew *Crocidura russula* (Fam. Soricidae). Ultrastructural and morphometric comparison with rat liver 421

C.J. Kirkpatrick, W. Mohr, O. Haferkamp: Lipid storage in cultured articular chondrocytes due to prostanoid precursors and a prostanoid synthesis inhibitor 441

Short Communications

G. Viehberger: Apical surface of the epithelial cells in the gallbladder of the rainbow trout and the tench 449

W. Kummer, K. Addicks: The paraganglion supracardiale vagi: An intravagal paraganglion in the rat 455

K. Ishii, T. Kusakabe: The glomus cell of the carotid labyrinth of *Xenopus laevis* 459

E. Holm Nielsen, J. Clausen: Electron microscopic study of the regeneration in vivo of rat peritoneal mast cells after histamine secretion 465

No. 3 issued on June 16, 1982

B. Kaissling, M. Le Hir: Distal tubular segments of the rabbit kidney after adaptation to altered Na- and K-intake. I. Structural changes 469

M. Le Hir, B. Kaissling, U.C. Dubach: Distal tubular segments of the rabbit kidney after adaptation to altered Na- and K-intake. II. Changes in Na-K-ATPase activity 493

D. Opstelten, R. Stikker, G.J. Deenen, P. Nieuwenhuis: Germinal centers and the B-cell system. VII. Complement receptors, antigen receptors, immunoglobulin and alkaline phosphatase in germinal centers of the rabbit appendix and popliteal lymph nodes 505

E. Winterhager, W. Kühnel: Alterations in intercellular junctions of the uterine epithelium during the preimplantation phase in the rabbit 517

E. Florey, M.A. Cahill: The innervation pattern of crustacean skeletal muscle. Morphometry and ultrastructure of terminals and synapses 527

E. Florey, M.A. Cahill: Scanning electron microscopy of echinoid podia 543

G. Brunner: Differential specificity of substrate-attached lectins stimulating spreading of GH_3-cells under serum-free, hormone-supplemented culture conditions 553

K. Szabó, K. Csányi: The vascular architecture of the developing pituitary-median eminence complex in the rat 563

B. von Gaudecker, H.K. Müller-Hermelink: The development of the human tonsilla palatina 579

S. Hovsépian, H. Feracci, S. Maroux, G. Fayet: Kinetic studies of the localization of amino-peptidase N in monolayer and in follicle-associated cultures of porcine thyroid cells 601

N.J. Severs: Cholesterol distribution and structural differentiation in the sarcoplasmic reticulum of rat cardiac muscle cells. A freeze-fracture cytochemical investigation 613

J. Schnitzer, M. Schachner: Cell type specificity of a neural cell surface antigen recognized by the monoclonal antibody A2B5 625

G.J. Berg, M. Schachner: Electron-microscopic localization of A2B5 cell surface antigen in monolayer cultures of murine cerebellum and retina 637

C.-T. Lin, K. Mukai, C.Y. Lee: Studies of hCG binding and endocytosis in rat ovary by ultrastructural immunocytochemistry 647

G. Brunner, G. Tschank: Contracting striated muscle fibres differentiated from primary rat pituitary cultures 655

C.F. Ardavín, A. Zapata, E. Garrido, A. Villena: Ultrastructure of gut-associated lymphoid tissue (GALT) in the urodele amphibian, *Pleurodeles waltlii* 663

J. Zelená: Survival of Pacinian corpuscles after denervation in adult rats 673

Short Communications

R.T. Jones, J.H. Walker, H. Stadler, V.P. Whittaker: Further evidence that glycosaminoglycan specific to cholinergic synaptic vesicles recycles during electrical stimulation of the electric organ of *Torpedo marmorata* 685

M. Karasek, T.S. King, B.A. Richardson, E.C. Hurlbut, J.T. Hansen, R.J. Reiter: Day-night differences in the number of pineal "synaptic" ribbons in two diurnal rodents, the chipmunk (*Tamias striatus*) and the ground squirrel (*Spermophilus richardsonii*) 689

S. Bläher, I. Vigh-Teichmann, M. Ueck: Cerebrospinal fluid-contacting neurons and other somatostatin-immunoreactive perikarya in brains of tadpoles of *Xenopus laevis* 693
